

Bandit Level 4 → Level 5

Objective

Find the only file containing **human-readable text** and use it to obtain the password for **Level 5**.

Execution

1. Log in as **bandit4**

After connecting to Level 4, list the files in the home directory:

`ls -al`

You will find a directory named:

Inhere

```
bandit4@bandit:~$ ls -al
total 24
drwxr-xr-x  3 root root 4096 Jun 24 14:59 .
drwxr-xr-x 150 root root 4096 Jun 24 15:02 ..
-rw-r--r--  1 root root  220 Feb 13  2026 .bash_logout
-rw-r--r--  1 root root 3851 Jun 24 14:50 .bashrc
-rw-r--r--  1 root root  807 Feb 13  2026 .profile
drwxr-xr-x  2 root root 4096 Jun 24 14:59 inhere
bandit4@bandit:~$ cd inhere
bandit4@bandit:~/inhere$ ls -al
total 48
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file00
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file01
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file02
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file03
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file04
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file05
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file06
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file07
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file08
-rw-r----- 1 bandit5 bandit4 33 Jun 24 14:59 -file09
drwxr-xr-x  2 root  root  4096 Jun 24 14:59 .
drwxr-xr-x  3 root  root  4096 Jun 24 14:59 ..
bandit4@bandit:~/inhere$ |
```

2. Enter the directory

Run:

cd inhere

Then list all the files:

ls -al

You should see several files such as:

-file00

-file01

-file02

...

-file09

Purpose:

The challenge requires us to find which file contains readable text.

```
andit4@bandit:~/inhere$ file ./*
/-file00: data
/-file01: data
/-file02: data
/-file03: data
/-file04: data
/-file05: data
/-file06: OpenPGP Public Key
/-file07: ASCII text
/-file08: data
/-file09: Motorola S-Record; binary data in text format
andit4@bandit:~/inhere$ 0|
```

3. Identify the file type

Instead of opening every file individually, check their file types using:

file ./*

Look through the results for the file identified as:

ASCII text

In this case, it is:

`./-file07`

4. Read the correct file

Run:

`cat ./-file07`

Purpose:

`cat` displays the contents of the ASCII text file.

The command reveals the password for the next level:

6C7h9GD8M6ai5nr7wo1RonrzFjj9yIrG

Password for Level 5

6C7h9GD8M6ai5nr7wo1RonrzFjj9yIrG

Then exit from that level.

```
bandit4@bandit:~/inhere$ cat ./-file07
6C7h9GD8M6ai5nr7wo1RonrzFjj9yIrG
bandit4@bandit:~/inhere$ |
```
