

Bandit Level 0 → Level 1

Objective

Gain access to the Bandit Level 0 environment and retrieve the password required to log in to Level 1.

Execution

1. Establish an SSH connection

```
ssh bandit0@bandit.labs.overthewire.org -p 2220
```

Enter the Level 0 password when prompted:

bandit0

Purpose:

SSH allows us to access the remote Bandit machine securely. Port 2220 is used because the Bandit game does not use the standard SSH port.

cat readme

Purpose:

`cat` prints the contents of a file directly in the terminal.

The command reveals the password for the next level:

6y2kwnwK6ggvwwpVLaa2T1cpFEK0hNR

```
bandit0@bandit: ~  
-m32                compile for 32bit  
-fno-stack-protector disable ProPolice  
-Wl,-z,norelro       disable relro  
  
In addition, the execstack tool can be used to flag the stack as  
executable on ELF binaries.  
  
Finally, network-access is limited for most levels by a local  
firewall.

Congratulations on your first steps into the bandit game!!  
Please make sure you have read the rules at https://overthewire.org/rules/  
If you are following a course, workshop, walkthrough or other educational activity,  
please inform the instructor about the rules as well and encourage them to  
contribute to the OverTheWire community so we can keep these games free!
